

PARAMETER LIST

Type / Category	Paramater	Definitions
Acceleration (Gen 2)	Acceleration B1 Efforts (Gen2)	Total Acceleration Effort Count in Acceleration Band 1
Acceleration (Gen 2)	Acceleration B2 Efforts (Gen2)	Total Acceleration Effort Count in Acceleration Band 2
Acceleration (Gen 2)	Acceleration B3 Efforts (Gen2)	Total Acceleration Effort Count in Acceleration Band 3
Acceleration (Gen 2)	Acceleration B1 Average Efforts (Session) (Gen2)	Total Acceleration Effort Count in Acceleration Band 1 divided by the session count
Acceleration (Gen 2)	Acceleration B2 Average Efforts (Session) (Gen2)	Total Acceleration Effort Count in Acceleration Band 2 divided by the session count
Acceleration (Gen 2)	Acceleration B3 Average Efforts (Session) (Gen2)	Total Acceleration Effort Count in Acceleration Band 3 divided by the session count
Acceleration (Gen 2)	Acceleration B1-3 Efforts (Gen 2)	The total number of acceleration efforts in acceleration bands 1, 2 and 3
Acceleration (Gen 2)	Acceleration B2-3 Efforts (Gen 2)	The total number of acceleration efforts in acceleration bands 2 and 3
Acceleration (Gen 2)	Acceleration B1-3 Average Efforts (Session) (Gen 2)	Total Acceleration Effort count in Acceleration Bands 1, 2 and 3 divided by the session count.
Acceleration (Gen 2)	Acceleration B2-3 Average Efforts (Session) (Gen 2)	Total Acceleration Effort count in Acceleration Bands 2 and 3 divided by the session count.
Acceleration (Gen 2)	Acceleration B1 Duration (Gen2)	Total Acceleration Duration in Acceleration Band 1
Acceleration (Gen 2)	Acceleration B2 Duration (Gen2)	Total Acceleration Duration in Acceleration Band 2
Acceleration (Gen 2)	Acceleration B3 Duration (Gen2)	Total Acceleration Duration in Acceleration Band 3
Acceleration (Gen 2)	Acceleration B1-3 Duration (Gen 2)	The total Acceleration time spent in acceleration bands 1, 2 and 3
Acceleration (Gen 2)	Acceleration B2-3 Duration (Gen 2)	The total Acceleration time spent in acceleration bands 2 and 3

Acceleration (Gen 2)	Acceleration B1 Distance (Gen2)	Total Acceleration Distance in Acceleration Band 1
Acceleration (Gen 2)	Acceleration B2 Distance (Gen2)	Total Acceleration Distance in Acceleration Band 2
Acceleration (Gen 2)	Acceleration B3 Distance (Gen2)	Total Acceleration Distance in Acceleration Band 3
Acceleration (Gen 2)	Acceleration B1-3 Distance (Gen 2)	The total acceleration distance covered in Acceleration bands 1, 2 and 3
Acceleration (Gen 2)	Acceleration B2-3 Distance (Gen 2)	The total Acceleration distance covered in Acceleration bands 2 and 3
Acceleration (Gen 2)	Deceleration B1 Efforts (Gen2)	Total Deceleration Effort Count in Deceleration Band 1
Acceleration (Gen 2)	Deceleration B2 Efforts (Gen2)	Total Deceleration Effort Count in Deceleration Band 2
Acceleration (Gen 2)	Deceleration B3 Efforts (Gen2)	Total Deceleration Effort Count in Deceleration Band 3
Acceleration (Gen 2)	Deceleration B1 Average Efforts (Session) (Gen2)	Total Deceleration Effort Count in Deceleration Band 1 divided by the session count
Acceleration (Gen 2)	Deceleration B2 Average Efforts (Session) (Gen2)	Total Deceleration Effort Count in Deceleration Band 2 divided by the session count
Acceleration (Gen 2)	Deceleration B3 Average Efforts (Session) (Gen2)	Total Deceleration Effort Count in Deceleration Band 3 divided by the session count
Acceleration (Gen 2)	Deceleration B1-3 Efforts (Gen 2)	The total number of Deceleration efforts in Deceleration bands 1, 2 and 3
Acceleration (Gen 2)	Deceleration B2-3 Efforts (Gen 2)	The total number of Deceleration efforts in Deceleration bands 2 and 3
Acceleration (Gen 2)	Deceleration B1-3 Average Efforts (Session) (Gen 2)	Total Deceleration Effort count in Deceleration Bands 1, 2 and 3 divided by the session count.
Acceleration (Gen 2)	Deceleration B2-3 Average Efforts (Session) (Gen 2)	Total Deceleration Effort count in Deceleration Bands 2 and 3 divided by the session count.
Acceleration (Gen 2)	Deceleration B1 Duration (Gen2)	Total Deceleration Duration in Deceleration Band 1
Acceleration (Gen 2)	Deceleration B2 Duration (Gen2)	Total Deceleration Duration in Deceleration Band 2
Acceleration (Gen 2)	Deceleration B3 Duration (Gen2)	Total Deceleration Duration in Deceleration Band 3

Acceleration (Gen 2)	Deceleration B1-3 Duration (Gen 2)	The total Deceleration time spent in Deceleration bands 1, 2 and 3
Acceleration (Gen 2)	Deceleration B2-3 Duration (Gen 2)	The total Deceleration time spent in Deceleration bands 2 and 3
Acceleration (Gen 2)	Deceleration B1 Distance (Gen2)	Total Deceleration Distance in Deceleration Band 1
Acceleration (Gen 2)	Deceleration B2 Distance (Gen2)	Total Deceleration Distance in Deceleration Band 2
Acceleration (Gen 2)	Deceleration B3 Distance (Gen2)	Total Deceleration Distance in Deceleration Band 3
Acceleration (Gen 2)	Deceleration B1-3 Distance (Gen 2)	The total Deceleration distance covered in Deceleration bands 1, 2 and 3
Acceleration (Gen 2)	Deceleration B2-3 Distance (Gen 2)	The total Deceleration distance covered in Deceleration bands 2 and 3
Acceleration (Gen 2)	Max Acceleration	Maximum acceleration reached in session as output from the Acceleration (Gen2) effort detection
Acceleration (Gen 2)	Max Deceleration	Maximum deceleration reached in session as output from the Acceleration (Gen2) effort detection
Basic	Acceleration Density	The acceleration load relative to time
Basic	Acceleration Density Index	Acceleration Load per 10m of Distance covered
Basic	Total Acceleration Load	Total acceleration Load as derived form the GNSS / LPS acceleration
Basic	Avg Acceleration Load (Session)	Total acceleration Load as derived form the GNSS / LPS acceleration divided by session count
Basic	Average Distance	The average distance covered per period
Basic	Average Distance (Session)	The average distance covered per session
Basic	Average Duration	The average duration of each period
Basic	Average Duration (Session)	The average duration per sessions
Basic	Average Player Load	The average player load accumulated per period
Basic	Average Player Load (1D Fwd)	Average player load accumulated in the Anterior-Posterior axis per period

Basic	Average Player Load (1D Fwd) (Session)	Average player load accumulated in the Anterior-Posterior axis session
Basic	Average Player Load (1D Side)	Average player load accumulated in the Lateral axis per period
Basic	Average Player Load (1D Side) (Session)	Average player load accumulated in the Lateral axis per session
Basic	Average Player Load (1D Up)	Average player load accumulated in the Vertical axis per period
Basic	Average Player Load (1D Up) (Session)	Average player load accumulated in the Vertical axis per session
Basic	Average Player Load (2D)	Average player load accumulated in the Lateral & Anterior-Posterior axes per period
Basic	Average Player Load (2D) (Session)	Average player load accumulated in the Lateral & Anterior-Posterior axes per session
Basic	Average Player Load (Session)	The average Player Load accumulated per session
Basic	Average Player Load (Slow)	Average Player Load accumulated while the athlete is travelling less than 2 m/s per period
Basic	Average Player Load (Slow) (Session)	Average Player Load accumulated while the athlete is travelling less than 2 m/s per session
Basic	Avg Heart Rate	The average heart rate for the session or period selected
Basic	Avg HR (% Max)	The average heart rate for the session or period selected represented as a % of the athlete's profile max HR
Basic	Exertion Index	The Exertion Index is a parameter to describe physical load developed by FitSense Australia. This measure allows a relationship to be drawn between game load, fatigue, and the total load between athletes. The weighting is based on a polynomial relationship in which high speeds achieve a higher exertion value than lower speeds. Exertion index is measured in arbitrary units.
Basic	Exertion Index Per Minute	Exertion Index divided by duration
Basic	Heart Rate Exertion	Heart Rate banded Duration multiplied by a weighting factor for each band
Basic	Heart Rate Exertion Per Metre	Heart Exetion divided by distance
Basic	Heart Rate Exertion Per Minute	Heart Rate Exertion divided duration

Basic	Maximum Heart Rate	Maximum heart rate (BPM) dependent on time interval selected
Basic	Max HR (% Max)	The maximum heart rate for the session or period selected represented as a % of the athlete's profile max HR
Basic	Maximum Velocity	Maximum velocity reached, dependent on time interval selected
Basic	Max Vel (% Max)	The maximum velocity for the session or period selected represented as a % of the athlete's profile max velocity
Basic	Meterage/Yards Per Minute	Average meters/yards covered per minute, dependent on time interval selected
Basic	Average Player Load (Session)	The average Player Load accumulated per session
Basic	Peak Player Load	The peak instantaneous PL value recorded for the athlete
Basic	Player Load (1D Fwd %)	The percentage of total player load that is comprised of movement in the anterior/posterior plane
Basic	Player Load (1D Fwd)	Player Load accumulated in only the anterior/posterior plane
Basic	Player Load (1D Side %)	The percentage of total player load that is comprised of movement in the lateral plane
Basic	Player Load (1D Side)	Player Load accumulated in only the lateral plane
Basic	Player Load (1D Up %)	The percentage of total player load that is comprised of movement in the vertical plane
Basic	Player Load (1D Up)	Player Load accumulated in only the vertical plane
Basic	Player Load (2D)	Player Load accumulated in the lateral and anterior/posterior planes, excluding vertical
Basic	Player Load (Slow)	Player Load accumulated when the athlete travelling less than 2 m/s
Basic	Player Load Per Minute	Player Load divided by duration
Basic	Player Load Per Metre/Yard	Total Player Load divided by Total Distance
Basic	Total Distance	Total distance covered during selected (periods/sessions)
Basic	Total Duration	Total duration of time intervals selected (periods/sessions)
Basic	Total Player Load	Total Player Load accumulated during time interval selected
Basic	Velocity Work/ Rest Ratio	"The amount of time spent above the work velocity threshold divided by the amount of time spent below the rest velocity threshold"
Basic	Work/Rest Ratio	"The amount of time spent above the work player load threshold divided by the amount of time spent below the rest player load threshold"
IMA (V2)	IMA Accel (Low/ Med/High)	Total IMA movements registered in a forward acceleration vector within specified band (Low/Medium/High)

IMA (V2)	IMA Decel (Low/Med/High)	Total IMA movements registered in a deceleration vector within specified band (Low/Medium/High)
IMA (V2)	IMA CoD Left (Low/Med/High)	Total IMA movements registered in a leftward lateral vector within specified band (Low/Medium/High)
IMA (V2)	IMA CoD Right (Low/Med/High)	Total IMA movements registered in a rightward lateral vector within specified band (Low/Medium/High)
IMA (V2)	IMA Jump Count (Low/Med/High) Band	Total jumps registered within specified band
Custom	Total IMA	Summation of IMA event counts for all bands and all components
Custom	Total IMA (Average)	Summation of IMA event counts for all bands and all components divided by session count
Custom	IMA Total/Min	Summation of IMA event counts for all bands and all components divided by time
IMA Impacts	IMA Impacts Band 1-8 Average Count	Total Number of Impacts registered within their respective bands divided by period count
IMA Impacts	IMA Impacts Band 1-8 Average Count (Session)	Total Number of Impacts registered within their respective bands divided by session count
IMA Impacts	IMA Impacts Band 1-8 Count	Total Number of Impacts registered within their respective bands
IMA Jumps	IMA Jump Count (Low/Med/High) Band	Total Number of jumps registered within their respective bands
Heart Rate	Heart Rate Band 1-8 Average BPM	The average heart rate while within designated bands
Heart Rate	Heart Rate Band 1-8 Average Distance	Average distance covered while within the designated heart rate band per period
Heart Rate	Heart Rate Band 1-8 Average Distance (Session)	Average distance covered while within the designated heart rate band per session
Heart Rate	Heart Rate Band 1-8 Average Duration	Average time spent in the designated heart rate zones per period
Heart Rate	Heart Rate Band 1-8 Average Duration (Session)	Average time spent in the designated heart rate zones per session
Heart Rate	Heart Rate Band 1-8 Distance %	The percentage of total distance covered in the designated heart rate band

Heart Rate	Heart Rate Band 1-8 Duration %	The percentage of total time spent in the designated heart rate band
Heart Rate	Heart Rate Band 1-8 Total Distance	The total distance covered while within the designated heart rate band
Heart Rate	Heart Rate Band 1-8 Total Duration	The total time spent while within the designated heart rate band
Heart Rate	Heart Rate Band 2-8 Average Effort Count	total number of times the athlete enters the designated HR band divided by period count
Heart Rate	Heart Rate Band 2-8 Average Effort Count (Session)	total number of times the athlete enters the designated HR band divided by session count
Heart Rate	Heart Rate Band 2-8 Total Effort Count	total number of times the athlete enters the designated HR band
Information	Athlete Weight	The athlete weight as entered into the athlete profile page
Information	Bench Time	The total amount of time an athlete is interchanged OUT during activities
Information	Date	The date of the activities selected
Information	Day Name	The day of the week of the activity selected
Information	End Time	The end time of the activity, period or annotation selected
Information	Field Time	The total amount of time an athlete is interchanged IN during activities
Information	Jersey	The jersey number/code for athlete in database
Information	Month Name	The name of the period containing viewed data
Information	Period Count	
Information	Period Name	The name of the period containing viewed data
Information	Position Name	Position as defined by athlete in database
Information	Profile Max Heart Rate	Athlete's Maximum HR as entered into the Athlete Profile Page
Information	Profile Max Velocity	Athlete's Maximum Velocity as entered into the Athlete Profile Page
Information	Session Count	The count of sessions selected
Information	Start Time	Start time of the activity selected
Information	Team Name	Name of the team as labelled in database
Information	Unix End Time	end time of activity expressed in the number of seconds elapsed since 00:00:00 Coordinated Universal Time (UTC), Thursday 1 January 1970, minus leap seconds

Information	Unix Start Time	start time of activity expressed in the number of seconds elapsed since 00:00:00 Coordinated Universal Time (UTC), Thursday 1 January 1970, minus leap seconds
Metabolic Power	EDI (Equivalent Distance Index)	Ratio between Equivalent Distance and Total Distance to illustrate the influence of acceleration events on total distance
Metabolic Power	Equivalent Distance	Traditionally defined as the distance the athlete would have run at a steady pace on grass using the total energy spent
Metabolic Power	Meta Energy (Cal/kg)	Estimated caloric expenditure, based on GPS / LPS acceleration
Metabolic Power	Meta Energy (KJ/kg)	Estimated energy expenditure, based on GPS / LPS acceleration
Metabolic Power	Metabolic Power Band 1-8 Average Power	Average power (W) attained while within specified band
Metabolic Power	Metabolic Power Band 1-8 Total Duration	Total duration of time spent in specified metabolic power band
Metabolic Power	Metabolic Power Band 1-8 Total Duration %	Percentage of total time spent in the specified power band
Metabolic Power	Metabolic Power Band 1-8 Total Efforts	Total efforts made within specified power band
Metabolic Power	Peak Meta Power	The highest instantaneous energy expenditure within specified band
Player Load	Player Load Band 1-8 Average Distance	Average distance covered while in specified band per period
Player Load	Player Load Band 1-8 Average Distance (Session)	Average distance covered while in specified band per activity
Player Load	Player Load Band 1-8 Average Duration	Average duration of time spent in specified band per period
Player Load	Player Load Band 1-8 Average Duration (Session)	Average duration of time spent in specified band per activity
Player Load	Player Load Band 1-8 Distance %	The percentage of total distance that was covered while within specified band

Player Load	Player Load Band 1-8 Duration %	The percentage of total duration that was covered while within specified band
Player Load	Player Load Band 1-8 Total Player Load	The total distance of time spent in specified band
Player Load	Player Load Band 1-8 Total Duration	The total duration of time spent in specified band
Player Load	Player Load Band 2-8 Average Effort Count	Average amount of times specified band was reach per period
Player Load	Player Load Band 2-8 Average Effort Count (Session)	Average amount of times specified band was reach per activity
Player Load	Player Load Band 2-8 Total Effort Count	The total amount of times specified band was reached
RHIE	RHIE Bout Recovery- Max	The longest amount of time between RHIE events
RHIE	RHIE Bout Recovery- Mean	The average amount of time between RHIE events
RHIE	RHIE Bout Recovery- Min	The shortest time between RHIE events
RHIE	RHIE Effort Duration- Max	The longest duration of an RHIE event
RHIE	RHIE Effort Duration- Mean	The average duration of an RHIE event
RHIE	RHIE Effort Duration- Min	The shortest duration of an RHIE event
RHIE	RHIE Effort Recovery- Max	The longest amount of time between individual movements within an RHIE bout
RHIE	RHIE Effort Recovery- Mean	The average amount of time between individual movements within an RHIE bout
RHIE	RHIE Effort Recovery- Min	The shortest amount of time between individual movements within an RHIE bout
RHIE	RHIE Efforts Per Bout- Max	The largest amount of movements within an RHIE occurrence
RHIE	RHIE Efforts Per Bout- Mean	The average amount of movements within an RHIE occurrence
RHIE	RHIE Efforts Per Bout- Min	The least amount of movements within an RHIE occurrence
RHIE	RHIE Total Bouts	The total occurrences of RHIE events within the defined timeframe (session/period)

Velocity (Gen 2)	Velocity B2+ Total # Efforts (Gen2)	Total number of efforts above the Velocity Band 2 threshold
Velocity (Gen 2)	Velocity B3+ Total # Efforts (Gen2)	Total number of efforts above the Velocity Band 3 threshold
Velocity (Gen 2)	Velocity B4+ Total # Efforts (Gen2)	Total number of efforts above the Velocity Band 4 threshold
Velocity (Gen 2)	Velocity B5+ Total # Efforts (Gen2)	Total number of efforts above the Velocity Band 5 threshold
Velocity (Gen 2)	Velocity B6+ Total # Efforts (Gen2)	Total number of efforts above the Velocity Band 6 threshold
Velocity (Gen 2)	Velocity B7+ Total # Efforts (Gen2)	Total number of efforts above the Velocity Band 7 threshold
Velocity (Gen 2)	Velocity B8 Total # Efforts (Gen2)	Total number of efforts above the Velocity Band 8 threshold
Velocity (Gen 2)	Velocity B2+ Average Effort Distance (Gen2)	Average distance per effort for all efforts recorded above the B2+ threshold
Velocity (Gen 2)	Velocity B3+ Average Effort Distance (Gen2)	Average distance per effort for all efforts recorded above the B3+ threshold
Velocity (Gen 2)	Velocity B4+ Average Effort Distance (Gen2)	Average distance per effort for all efforts recorded above the B4+ threshold
Velocity (Gen 2)	Velocity B5+ Average Effort Distance (Gen2)	Average distance per effort for all efforts recorded above the B5+ threshold
Velocity (Gen 2)	Velocity B6+ Average Effort Distance (Gen2)	Average distance per effort for all efforts recorded above the B6+ threshold
Velocity (Gen 2)	Velocity B7+ Average Effort Distance (Gen2)	Average distance per effort for all efforts recorded above the B7+ threshold
Velocity (Gen 2)	Velocity B8 Average Effort Distance (Gen2)	Average distance per effort for all efforts recorded above the B8 threshold
Velocity (Gen 2)	Velocity B4+ Maximum Effort Distance (Gen2)	Max effort Distance recorded above the B4+ threshold
Velocity (Gen 2)	Velocity B4+ Minimum Effort Distance (Gen2)	Min effort distance recorded above the B4+ threshold
Velocity (Gen 2)	Velocity B5+ Maximum Effort Distance (Gen2)	Max effort distance recorded above the B5+ threshold

Velocity (Gen 2)	Velocity B5+ Minimum Effort Distance (Gen2)	Min effort distance recorded above the B5+ threshold
Velocity (Gen 2)	Velocity B6+ Maximum Effort Distance (Gen2)	Max effort distance recorded above the B6+ threshold
Velocity (Gen 2)	Velocity B6+ Minimum Effort Distance (Gen2)	Min effort distance recorded above the B6+ threshold
Velocity (Gen 2)	Velocity B7+ Maximum Effort Distance (Gen2)	Max effort distance recorded above the B7+ threshold
Velocity (Gen 2)	Velocity B7+ Minimum Effort Distance (Gen2)	Min effort distance recorded above the B7+ threshold
Velocity (Gen 2)	Velocity B8 Maximum Effort Distance (Gen2)	Max effort distance recorded above the B8 threshold
Velocity (Gen 2)	Velocity B8 Minimum Effort Distance (Gen2)	Min effort distance recorded above the B8 threshold
